## INTERNATIONAL BASKETBALL'S GAMEBALL

COVER	CONSTRUCTION	BLADDER	SURFACE
Premium Leather	Foam Backing & Foam Layer	Butyl	Indoor

### OFFICIAL GAMEBALL OF THE FIBA WORLD CUP & OLYMPICS

The 5000 continues to crown international titles. The Olympics since 1982, FIBA World Cup in 2027, the BG5000 remains basketball's global standard.

### A PREMIUM LEATHER BASKETBALL

Used by elite players around the globe - the premium leather surface of the 5000 is in contact with the hand 95% more than pebble surfaces, delivering the very best grip.

### TECHNOLOGICALLY ADVANCED CONSTRUCTION

The 5000's foam backing layer and high-foamed rubber construction have been increased by 35%, delivering an elite competition basketball that's easy to handle and puts the player in total control.

### ICONIC DESIGN - TRADITION MEETS INNOVATION

Created in 2005, Giorgetto Giugiaro's iconic 12-panel/12-seam design delivers more control than 8-panel/8-seam balls. As well as delivering improved handling, more seams make it easier to create backwards rotation when shooting, increasing the chance of scoring.

### GUARANTEED PERFORMANCE

The 5000 delivers consistent bounce integrity thanks to a nylon-wound, butyl bladder that retains air exceptionally well. Add Molten's superior build-quality and you've got a basketball that can handle the world's most intense games.

### AN EXCELLENT SKILLS BASKETBALL

The 2010 is for the emerging baller who has graduated out of entry-level, flat seams and is really looking to develop their skills.

### GRIPPY NATURAL RESIN RUBBER

The 2010 has a pebble texture, a tacky grip, and 12 deep channels that replicate our leather basketballs.

The 2010 is a ball that allows players to really start to show their ability.

### INDOOR AND OUT

The 2010 can be enjoyed anywhere there's a ring and is perfectly at home on portable hoops. It is available in Size 5 for younger players too.

### ICONIC DESIGN - TRADITION MEETS INNOVATION

Created in 2005, Giorgetto Giugiaro's iconic 12-panel/12-seam design delivers more control than 8-panel/8-seam balls. As well as delivering improved handling, more seams make it easier to create backwards rotation when shooting, increasing the chance of scoring.

### ROUNDER FOR LONGER

The 2010 basketball delivers a consistent, responsive experience - the butyl bladder retains air exceptionally well, maintaining bounce integrity and Molten build quality means it can handle practice, practice, and more practice.

### AN INNOVATIVE SOLUTION TO IMPACT INJURIES INCURRED IN THIS NEW FOOTBALL FORMAT

The 3135 features the same build technology, bounce and flight characteristics as our international matchballs - **at 80% of the weight** - perfect for Walking Football. The slightly lighter weight reduces the risk of injury from being struck by the ball, particularly for goalkeepers.

A high-quality latex bladder and textured TPU surface ensure the 3135 retains the same flight and bounce as a standard matchball, avoiding any 'fly-away' characteristics. A foam underlay offers additional feel and protection.

### NO CHANGE TO THE 3135'S WEIGHT, EVEN IN THE WET

The 3135 is machine-stitched and bonded to ensure water absorption is at a minimum, retaining its light weight. The bright yellow makes it easier to pick out for ageing eyes.

### TRIED AND TESTED

The 3135 has been tested across Europe's walking football community. We'd like to thank Santos, Real Betis & Malaga FC.

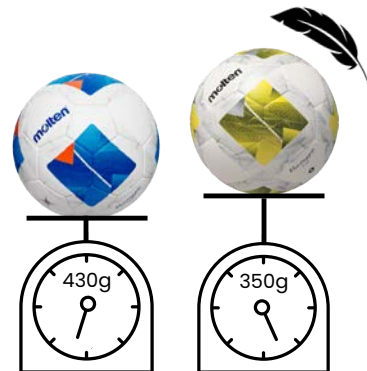

### ABOUT WALKING FOOTBALL

Walking football allows players to play well into the latter stages of their football life. Players walk instead of run. It's non-contact and suitable for people of all abilities, including players returning to football after injury or those with mobility issues.

### A NEW ADDITION WHICH ADDS A THICKER FOAM UNDERLAYER FOR TOUCH AND COMFORT

A high-performance training ball that can also be used for matches, the Vantaggio 2000, houses a 6mm foam underlayer offering a softer touch to deliver genuine feel and control.

### PERFECT FOR YOUTH PLAYERS

The 2000's soft-touch technology is perfect for younger players, reducing the possibility of impact injuries, particularly in the cold.

### A VERSATILE PERFORMER

The 2000's machine stitched construction, glossy surface and durable synthetic leather outer means it performs equally well on grass or astro.

### TOO GOOD TO KEEP AT TRAINING

The 2000 has been designed for a season of competitive training, recreational play and as a premium junior matchball. Anyone looking for a 5-a-side football that performs week-in, week-out will find the 2000 a durable performer.

## SPECIALLY DESIGNED FOR INDOOR FOOTBALL

<b>Build</b>	<b>Cover</b>	<b>Supplied Inflated?</b>	<b>Carton Quantity</b>
Hand Stitched	Soft Suede	No	20

### PREMIUM LEAGUE

The 3300 is a premium football designed specifically for indoor play, offering a combination of durability, control, and comfort.

Its standout feature is the soft suede outer layer, which provides a plush touch and excellent grip, enhancing ball control during fast-paced indoor matches.

### IN GREAT SHAPE

Constructed with hand-stitched precision, the 3300 maintains its shape and integrity over time, even with regular play.

The ball features a synthetic rubber bladder that ensures consistent air retention and optimal bounce characteristics.

### TRUE ROLL

The 3300's suede material contributes to the ball's abrasion resistance, ensuring it can withstand the rigours of frequent use on indoor surfaces.

The ball's durability means it can be a cost-effective option in the long run, as it maintains performance over time.

### CRAFTED TO PERFECTION

The Molten 3300 indoor football is a well-crafted ball that offers a soft touch, durability, and reliable performance for indoor football enthusiasts.

### PERFECT SIZES

The 3300 is available in adult size 5 and also in size 4, perfect for U14 players.

## VOLLEYBALL

From our technology-packed 5000 to Traditional Soft Touch, there's a Molten volleyball that's perfect for every player and every game.

The V5M5000 is the official volleyball of the NCAA® Men's Indoor Volleyball Championships.

### FLISTATEC® TECHNOLOGY

The ground-breaking **FLISTATEC®** (Flight Stability Technology) on the 5000, stabilises the ball's flight by controlling air disturbance through a raised honeycomb design offering elite level accuracy and speed.

The textured microfibre composite cover enhances grip, resulting in greater control in overhand passing, setting and spiking.
